

Julian Leung

Full Stack Developer | Senior Software Engineer

Worksop, UK

Portfolio: <https://julianleung.co.uk/>

GitHub: <https://github.com/julian-uk/>

Professional Summary

A highly analytical Senior Software Engineer with over 15 years of experience, specialising in enterprise-level ERP development and now transitioning into modern Full Stack web development. Proven track record in maintaining high-stability systems (C#, .NET 4.0) and architecting API-driven web applications using PHP 8 and JavaScript. Adept at bridging legacy systems with contemporary architectures and delivering robust, scalable solutions.

Technical Skills

Languages: PHP 8.x, JavaScript (ES6+), C#, .NET 4.0, Python, HTML5, CSS3.

Frameworks & Libraries: Node.js, Express, Redux, jQuery, AJAX, Bootstrap 5.

Databases: MSSQL Server, PostgreSQL, MySQL, MariaDB.

DevOps & Tools: GitHub, Render, ERP Architecture, System Analysis.

Professional Experience

Uber Soft Limited — ERP Specialist (2021–Present)

- Direct system maintenance and provide high-level user support for enterprise ERP environments.
- Bridge the gap between legacy data structures and modern reporting requirements.

Uber Soft Limited — ERP Developer (2010–2021)

- Architected and maintained a core Windows-based ERP system for 11 years using C# and .NET 4.0.
- Managed MSSQL databases, ensuring 99.9% uptime for business-critical operations.

Zymmetry Group — System Analyst (2008–2010)

- Led development of ERP modules and integrated RFID hardware tracking systems.

MSC Ltd. — Business Analyst (2005–2008)

- Managed enterprise-wide ERP implementations and business process optimisation.

Key Projects & Achievements

Gazetteer (GIS Web Application)

- Developed a mobile-first, map-centric application integrating multiple third-party APIs (OpenWeather, RestCountries) using PHP 8 and Leaflet.js.

Company Directory

- Built a secure database management tool with full CRUD functionality using PHP, MySQL, and AJAX for seamless employee tracking.

Accounting System (.NET 4.0)

- Designed and deployed a secure financial module featuring automated ledger balancing and real-time invoicing reports.

Education & Training

Full Stack Developer Trainee — IT Career Switch (2025–2026)

Intensive certification programme focused on modern web architecture and deployment.

Master Of Business Administration (Information Technology Management) (2009-2011)

The Hong Kong Polytechnic University

BSc in Computer Science (Information System) — (1999–2003)

The Hong Kong University of Science and Technology.
